THE NEWSLETTER OF VODAFONE FIJI

NOVEMBER 20, 2006

New Blackberry & data plans for business

THE NEW BlackBerry 8707v is now in town and it is accompanied by great new data plans from Vodafone Fiji.

The BlackBerry 8707v Wireless Handheld™ is the first 3G wireless handheld for business and represents a breakthrough in wireless connectivity.

It combines the power of 3G with advanced industry hardware, software and network technologies, in a single, lightweight, stylish device, with full QWERTY keyboard.

"With email, attachments, applications, phone and Internet, it's never been easier to stay connected on the move," says Vodafone Fiji chief executive Aslam Khan.

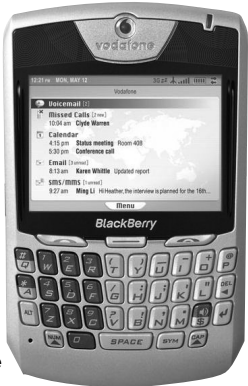

"Fiji is very lucky to have this product as there are several developed countries in the world that don't have BlackBerry yet hence this is an opportunity for our people

to make use of an awesome product," Khan said.

"The BlackBerry has taken the corporate world by storm and is great for customers who want to be more accessible and responsive while out of the office or simply want a device that can give them the freedom and flexibility to work on the move.

"Vodafone Fiji is committed to providing customers with devices that give them greater mobility, control and flexibility over the way they do business."

Vodafone Fiji has also slashed Post-Pay data plan prices by up to 60%. They now start from a low \$39.95 VIP plus a voice plan - which

BlackBerry 8707v... new phone in town

starts from \$23.63 VIP per month - for a Mobile Office package.

In addition, receiving your emails or browsing the Internet on the go has been made more affordable with prices for a Mobile Connect Card reduced to \$69.95 VIP per month, a \$30 reduction.

A BlackBerry Basic Activation package now costs only \$69.95 VIP plus a voice plan (\$23.63 VIP minimum a month). This enables the user to receive emails and browse the Internet using their BlackBerry.

A BlackBerry Premium Activation package is priced at \$69.95 VIP plus a voice plan (\$23.63 VIP minimum a month). A BlackBerry Premium Activation customer will be able to

receive emails and browse the Internet using their BlackBerry as well as use the device as an IP modem to browse the internet on their PC.

The devices that support IP Modem functions are: BlackBerry 7290v (selling for \$599 VIP), BlackBerry 7100v, BlackBerry 8707v (3G - selling for \$999 VIP) and BlackBerry 8700v.

The basic level BlackBerry 7230v does not support IP modem function. It sells \$149 VIP.

"This is the first of many new products and services we are able to introduce because of the installation of the new exchange," Khan said.

"We listened to corporates and these new plans are also a response to what they told us," he said.

"More great plans, products and services are in store in the next few months."

MOBILE PHONE TIPS

When and how long do I charge my mobile phone for?

Initial charging - Most handsets need to be charged for the 1st time for around 4 - 6 hours if you have a new model phone... these are Lithium batteries.

If you have a low range handset like a Nokia 3315 it is recommended that you charge your battery for 12 - 16 hours initially.

Always follow the instructions in your phones manual thereafter, you will need to charge your phone as soon as you see that the battery indicator on the screen of your mobile goes down to one bar.

Standard charging time for mobile phones is 2 - 3 hours.

Why does my battery go flat half an hour after charging it?

There are 3 reasons why this happens:

1. You did not charge it to the specific time, (4hrs) - Lithium batteries and (12/16hrs) - Standard batteries.

2. There could be an issue with your battery, you may need to get it checked by the manufacturers authorized service centre (Mobilefone, Repair, Foneology or Safeway electronics).

3. Your battery may have reached it's life expectancy and you may need to purchase a new battery.

What is the 123-service line used for? What services are provided?

- Directory assistance
- Wake up calls
- Thru-connect services (transferring of calls)
- One stop shop for all Vodafone service
- Find out where to eat
- What to do...the hottest spots around...calls 123 is a charged call.

Anything you would like to know just call 123. We are available 24 hours a day, 7 days a week.

My phone says "Network Code?"

Your phone wants to connect to a Network. Vodafone Fiji's network code is 5****. Enter this code to connect to Vodafone. If this does not work your phone will need to be inspected by a Vodafone Representative.

Why does 'Unlock or PUK' appear on the screen and what can I do to get rid of it?

This only appears on the screen of your mobile if someone had entered your PIN incorrectly 3 times. When 'PUK' appears on the screen of your phone, it is advisable to call our Customer Care Department so that they can give you your PUK number.

Please note, if you enter the incorrect PUK number 10 times, this will permanently block your SIM card and you will need to pay \$30.00 for a SIM replacement.

Note: you may also find your PUK code on your SIM certificate.

This will only appear if someone has entered the PUK Code incorrectly 10 times. When it appears on the screen of your phone, then you may need to get a 'SIM replacement', which will cost you \$30.00.

Please call 123 to confirm you have blocked your SIM.

Tosh meets Marley tour comes to Fiji

VODAFONE FIJI is helping Bula FM and Radio Fiji Gold bring the Tosh Meets Marley 2006 World Tour to Fiji in December.

And you can win one of 400 tickets to the two concerts in Suva and Lautoka on December 4-5 by Txtng 222. Entries cost \$0.99.

Plus every Vodafone customer who buys a mobile phone from a Vodafone shop gets a free concert souvenir t-shirt.

The Tosh Meets Marley World Tour concert features the music of reggae legends Bob Marley and Peter Tosh.

Even though it is 25 years since Marley's death and 23 years since Tosh's, their music remains a favourite among music fans in the Fiji music scene

The concert is put together by

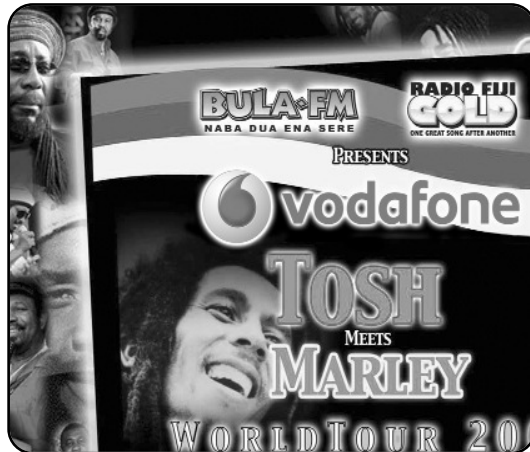

the legendary Fully Fullwood, the former Peter Tosh bassist/vocalist and the former Bob Marley and the Wailers stage manager and Wailers manager Mark Miller.

The show has the distinction of being the only show presenting many of Bob Marley's and Peter Tosh's greatest compositions such as 'I Shot the Sheriff', 'No Woman No Cry', 'Stir It Up', 'Get Up Stand Up', 'Don't Look Back' all in one show.

The Tosh Meets Marley concert will feature a who's who of legendary reggae musicians onstage including Bob Marley's

vocalist/guitarist Junior Marvin; Fully Fullwood, the Tosh bassist who has worked with Marley, Peter Tosh, Mighty Diamonds, U-Roy and others; Tony Chin who has played guitar for Bob Marley and others and was lead guitarist in Big Mountain; newcomer Winston Smith; Claudio Peppe, former Wailers band member on percussion; Jawge Hughes on keyboards; Goerges Kouau, from the Wailers and Alpha Blondy, also on keyboard, and celebrated guitarist Vince Black, formerly with Black Uhuru and others.

So Txt in to win a ticket to a show featuring an exciting and eclectic mix of the original reggae that continues to amaze the world many years after the death of Bob Marley and Peter Tosh.

Cure Kids race raises \$251,000

VODAFONE FIJI donated \$10,000 to the kitty as the Accor Group's race to survive to Cure Kids raised \$251,000 for the Children's Ward at Lautoka Hospital recently.

Sofitel general manager Paul Stevens said the organizers had beaten their target of \$150,000.

Stevens said the money would be handed over Cure Kids New Zealand who would buy equipment for the Children's Ward at Lautoka Hospital.

A visiting doctor program as well as drugs for needy children at the hospital would also be acquired.

Seventy-two staff from Accor properties in Australia, New Zealand and Fiji were divided into 12 teams and participated in a five-day race that involved swimming, mountain biking, outrigger canoeing and running.

Kids take care of our rivers

AROUND 120 students of Assemblies of God High School, Kinoya spent a day recently cleaning the creek that flows through the school compound.

The clean-up is part of activities of the AoG RiverCare Environmental Club, formed by teachers and

students of the school in an effort to teach and learn environmentally sustainable practices.

RiverCare, which is implemented by environmental education NGO Live and Learn, trains students and teachers and provides the exchange of

information through an educational toolkit, newsletters and other resources.

The Vodafone ATH Foundation is making a three-year grant of \$314,000 to Live & Learn for River Care, enabling the implementation of the student environmental initiatives in 59 secondary schools.

The two-pronged approach involves teacher training workshops with the Curriculum Development Unit of the Ministry of Education and secondary school visits.

Visits have already been made to teachers in secondary schools in the Suva, Navua, Nausori and Sigatoka education districts to introduce teachers to classroom activities on water education. Through the project students are given water monitoring kits and training on how to conduct field investigations on their surrounding water ways.
