

# Elevate Your Home Connectivity with Wi-Fi 6

No more Dead Zones, only Wi-Fi 6 Zones

From as low as

**\$6**

Per Month

 **vodafone**  
business

# Life's too busy for bad Wi-Fi

Getting Wi-Fi into every part of your home can be tough. Walls, concrete, metal and other devices can affect the performance on your Wi-Fi. Like many Fijians, you may find that there are areas where poor coverage or slow speeds take the fun out of online gaming or binge streaming your favorite rugby matches online.

## Now there's Wi-Fi 6

Vodafone Wi-Fi 6 provides fast, reliable Wi-Fi coverage to every corner of your home, ensuring that our customers can stay connected at all times. Vodafone's Wi-Fi 6 uses small Wi-Fi access points which works together with a home broadband router. This creates a smart and dynamic network which adjusts when needed to create the best possible connection for your home and connected devices.

## Why should I get Wi-Fi 6?

### Wall-to-wall coverage with next-gen Wi-Fi

If it's top performance you want, Wi-Fi 6 delivers. It's the latest generation of mesh technology and Wi-Fi capability.

### Device Prioritization

Forget the days of patchy work meetings when others are streaming or gaming. Set your important devices to High Priority so they have the best performance.

### Up to Three Mesh Units

Get up to three mesh units to strengthen Wi-Fi signal

### Parental controls

Keep even the littlest family member safer online. Create unique profiles to manage websites they can access and how long they spend online.

### Easy to Setup, Easy to Use

Use the Deco app for a simple step-by-step set up.

## What do I need to get a Wi-Fi 6 Mesh system?

### Step 1

Sign up to a Vodafone Post-pay Broadband Plan\*. If you're an existing customer, follow from step 2 onwards.

### Step 2

Choose a Wi-Fi 6 add-on plan from the 2 options; HX510 or Deco X60.

### Step 3

Contact Vodafone Business to complete the sign up process for the new add-on plan. Existing customers can contact their Business Account Managers for assistance. Scan QR code at the back for contact and more information.

\* Available on selected Vodafone Broadband Plans on router. Not applicable to pocket Wi-Fi devices.
