

Vodafone Mobile WIFI R215

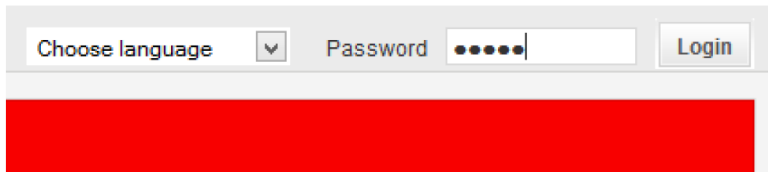

Modify Admin Password

Establish a connection to the internet by connecting the pocket Wi-Fi to your laptop/ computer through Wi-Fi connection or cable connection.

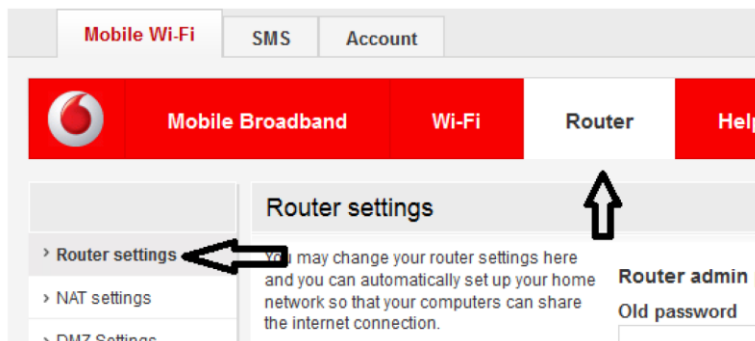

Open a web browser and enter the URL on the address bar: **http://VodafoneMobile.wifi** or **http://192.168.0.1**

Login using default admin **password** as '**admin**'.

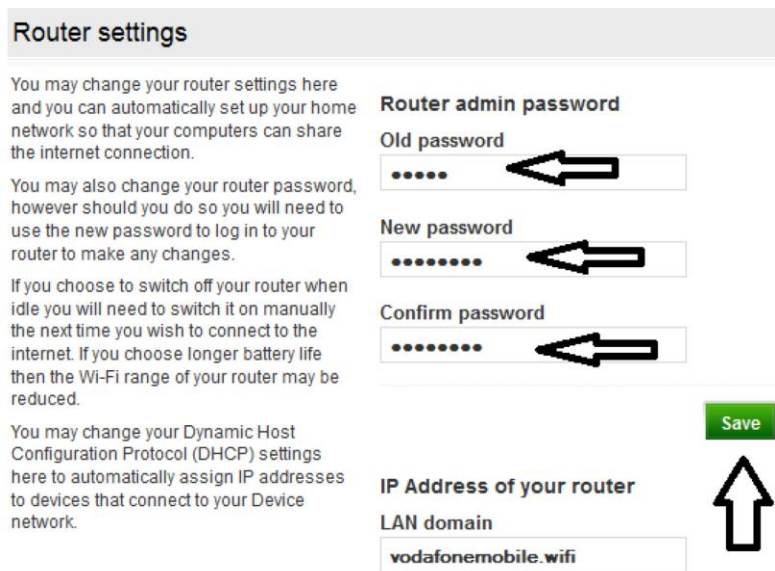

Select '**Router**' on the Navigation bar and then select '**Router Settings**'.

Enter "**new or preferred**" password.

Confirm password and select **Save**.

Router settings

You may change your router settings here and you can automatically set up your home network so that your computers can share the internet connection.

You may also change your router password, however should you do so you will need to use the new password to log in to your router to make any changes.

If you choose to switch off your router when idle you will need to switch it on manually the next time you wish to connect to the internet. If you choose longer battery life then the Wi-Fi range of your router may be reduced.

You may change your Dynamic Host Configuration Protocol (DHCP) settings here to automatically assign IP addresses to devices that connect to your Device network.

Login using default admin **password** as 'admin'

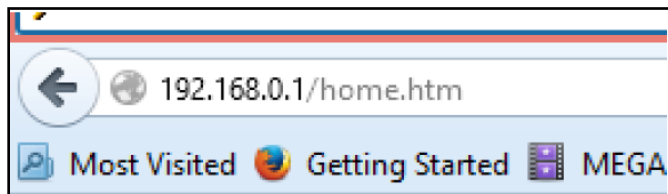

A login form with a 'Choose language' dropdown menu, a 'Password' field with four dots, and a 'Login' button. Below the form is a large red rectangular area.

Select **SMS**

Message Centre number **+679901400**

A screenshot of the 'SMS Settings' screen. At the top, there are tabs for 'Mobile Wi-Fi', 'Storage', 'SMS', and 'Account'. Below the tabs is a red navigation bar with 'Inbox', 'Write', 'Sent', 'Draft', 'Settings', and 'Help'. The 'SMS' tab is selected. The main content area shows 'SMS Settings' with a message: 'The device is preconfigured to use the default Message centre number. Changing this number may prevent you from sending and receiving text messages. The default number is +679901400.' There is a 'Message preview' section with 'On' and 'Off' radio buttons. Below that is a 'Message centre number' field with the value '+679901400' and a 'Save' button. Arrows point to the 'SMS' tab and the 'Message centre number' field.
